Procedure

1. To **change** a major or minor (UG), or to change a concentration (UG/GR/Credential) use the FORMER and NEW columns. To **add** a new major, minor, or concentration, use the NEW column only.
2. In order for a declaration or change of major to become effective in the same term that the form is submitted, it must be received at the Office of the Registrar by the end of the Add/Drop period.
3. A declaration or change to the minor or concentration may be submitted, and will become effective, at any point in the term.

Please note: While a student may be eligible for a degree (BA, BFA, BS) with multiple majors, NDNU does not award degrees for more than one degree type at the same time (for example, a BA **and** a BS simultaneously). Students who complete requirements for majors in more than one degree type must declare a **primary** major that dictates which degree is awarded.

Graduate Students: for a change from one graduate program to another, please use the graduate Change of Program form.
