\* Note: PSYC 5 does not satisfy the Mathematics General Education requirement at NDNU.

### Careers in Psychology

Psychology is the branch of science that studies human behavior and mental processes. The department offers a strong general psychology curriculum as recommended by the American Psychological Association. The General Education consists of basic course work spanning the different subfields of psychology from the clinical to the social and the experimental.

Special emphasis is placed on helping the psychology student develop analytic skills and interdisciplinary perspectives through lively classroom work, individual research, and study in the major areas of psychology.
