Our Commitment

The Notre Dame de Namur University Department of Public Safety aims to protect life and property by providing a safe and secure living, learning, and working environment for students, staff, faculty, and visitors. The Department of Public Safety works to achieve this by enforcing Notre Dame de Namur University policies, procedures, regulations, and local, state, and federal laws.

Message from the President

Thank you for taking the time to read the annual security report.

Whether you are faculty, staff, student, or visitor, our NDNU Community and Public Safety Department is here to provide you with a safe and secure environment and to meet the educational goals of this institution. NDNU is committed to providing the campus community with proactive, positive, and professional safety services that are courteous and service-driven.

It is my expectation that the professionally-trained members of the public safety team will continually be guided by integrity and a service-oriented mindset to help ensure the safety of our community and support the University and its visitors that are in keeping with NDNU's Core Values and the Hallmarks of a Notre Dame de Namur Learning Community.

The Department of Public Safety

NDNU contracts with Allied Universal Security Services to provide safety and security services seven days a week. Coverage is provided from 1:30 pm to 10:00 pm Monday through Friday and from 9:00 am to 5:00 pm on Saturdays and Sundays. The 50-acre campus is patrolled on foot, by a vehicle, and via video monitoring of campus areas. Public Safety Department staff reports directly to the Director of Facilities, who reports directly to the President. The Department of Public Safety office is located in St. Mary's Hall, Room 111, and has a customer service window in the central lobby.

A safe NDNU community begins with each individual. We encourage you to take responsibility for yourself and those around you by becoming familiar with policies and procedures, staying alert, and maintaining situational awareness as you move around the campus. We also want you to share concerns with the appropriate staff, use common sense, and care for personal belongings, keys, valuables, and ID cards.

NDNU Public Safety Officers are not sworn peace officers. All Public Safety Officers are registered with the California Department of Justice, Bureau of Security and Investigative Services, and maintain Security Guard licensure. All Public Safety Officers have received training in patrol procedures, investigations, interviewing, report writing, first aid, CPR, Automatic External Defibrillators (AED), and use of handcuffs, and are certified in the use of a Baton and OC Spray (Pepper Spray). These devices protect students, staff, visitors, and Public Safety Officers. Public Safety Officers are authorized to make a citizen's arrest (CA PC 834/837) of any/all persons creating disturbances against the general peace, interfering with the security of campus facilities or grounds, or interfering with or disturbing the safety and the general welfare of the university community. When such a citizen's arrest is necessary, the Department of Public Safety shall, as promptly as possible, notify the Belmont Police Department to come and render assistance as needed.

The Department of Public Safety maintains a cooperative working and information-sharing relationship with the Belmont Police Department and federal law enforcement/public safety agencies. Our contracted provider, Allied Universal Security Services, also maintains individual and corporate memberships in associations and organizations related to the campus safety and security field.

Reporting Emergencies

What is an Emergency?

A 911 emergency is any situation in which immediate police, fire, or medical response is required to preserve life or property, such as:

- an assault or immediate danger of assault
- chemical spill
- someone choking
- crime in progress
- drowning
- fight
- fire
- serious injury or illness
- situation involving weapons
- sounding of an emergency whistle

If calling from a non-campus phone

For immediate police, fire, or medical response, dial 911 from a cell phone or any non-university phone. Belmont Police Department dispatch can also be reached directly at 650-595-7400.

The “Jeanne Clery Act”

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act codified at 20 USC 1092 (f) as a part of the Higher Education Act of 1965, is a federal law that requires colleges and universities to disclose certain timely and annual information about campus crime and security policies. All public and private institutions of postsecondary education participating in federal student aid programs are subject to it.

The Clery Act, originally enacted by Congress and signed into law by President George Bush in 1990 as the Crime Awareness and Campus Security Act of 1990, was initiated by

Howard & Connie Clery after their daughter Jeanne was raped and murdered at Lehigh University in 1986. The Clery's also founded the non-profit Clery Center for Security on Campus (formerly Security On Campus, Inc.) in 1987. Amendments to the Act in 1998 renamed it in memory of their daughter Jeanne. The complete text of the Clery Act and U.S. Department of Education regulations are available on the Clery Center for Security on Campus website at <http://clerycenter.org/>.

Policy Statement Addressing Campus Law Enforcement

Notre Dame de Namur University Public Safety Officers have the authority to ask persons for identification and to determine whether individuals have lawful business at NDNU. NDNU Public Safety Officers have the authority to issue parking citations billed to the financial accounts of students, faculty, and staff. Public Safety Officers do not possess arrest powers. However, California penal code section 837PC permits a private person to arrest another under certain prescribed conditions. This is the authority by which NDNU public safety officers may conduct an arrest on campus. The Public Safety Office at NDNU maintains a highly professional working relationship with the Belmont Police Department. All crime victims and witnesses are strongly encouraged to immediately report the crime to NDNU Public Safety and Belmont Police Department. Prompt reporting will assure timely warning notices on campus and timely disclosure of crime statistics.

Policy Statement on Preparation and Disclosure of Crime Statistics

The NDNU Department of Public Safety prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. The full text of this report can be located on our website at:

<https://www.ndnu.edu/campus-life/public-safety/crime-statistics/>. You will also be able to connect to our site via the NDNU home page at <https://www.ndnu.edu/>. This report was prepared with the Belmont City Police Departments and NDNU's Human Resources. Each entity provided updated information on its educational efforts and programs to comply with the Act.

Campus crime, arrest, and referral statistics include those reported to the NDNU Department of Public Safety, designated campus officials (including but not limited to directors, deans, department heads, and advisors to students/student organizations), and local law enforcement agencies. These statistics may also include crimes that have occurred in private residences or businesses, the reporting of which is not required by law. California law (11160 of the California Penal Code) requires prompt, mandatory reporting to the local law enforcement agency by healthcare practitioners (such as those at Counseling and Health Services) when they provide medical services to a person they know or reasonably suspect is suffering from wounds inflicted by a firearm or is a result of assaultive or abusive conduct. NDNU's Counseling and Health Services staff policy was to inform their clients of the procedures to report a crime to the Department of Public Safety on a voluntary or confidential basis, should they feel it is in the client's best interest. A procedure was in place to anonymously capture crime statistics disclosed confidentially during such a session.

Each year, an email notification is sent to all enrolled students, current staff, and faculty who provide the website to access this report. Copies of the report may also be obtained at the Department of Public Safety located in St. Mary's Hall, Room 111, or by calling (650) 504-0656. All prospective employees may obtain a copy from Human Resources in Toso Namur or call (650) 508-3645. To request that a copy be mailed to you, contact the Department of Public Safety at security@ndnu.edu.

Policy Statement on Accurate and Prompt Crime Reporting

Community members, students, faculty, staff, and guests are encouraged to report all crimes and public safety-related incidents to the NDNU Department of Public Safety in a timely manner. This publication focuses on the Department of Public Safety because it patrols the NDNU campus.

To report a crime or an emergency impacting the NDNU campus during normal business hours, call 911 and then call the Department of Public Safety at (650) 504-0656. It is critically important that members of our community report crimes in progress or threats in a timely manner to help keep the campus safe. Do not attempt to apprehend or interfere with the suspect. If a hostile intruder is discovered in your immediate area, and you deem it unsafe to evacuate, retreat to a secure location such as an office or room that can be locked. Turn off the lights, remain quiet, stay low, and hide behind a desk or other furniture.

The Department of Public Safety incident reports are forwarded to the Office of the Provost to review and pursue potential action. Public Safety Officers will investigate a report when it is deemed appropriate. Additional information obtained during the investigation will be forwarded to the Academic Program Leaders as appropriate.

If assistance is required from the Belmont Police Department, they will be contacted by the Department of Public Safety. If a sexual assault should occur, staff on the scene, including the Department of Public Safety, will offer the complainant a wide variety of assistance and information about local, state, and national support services.

Crimes should be reported to the Department of Public Safety to ensure awareness of any operational areas that need further attention, to work to detect patterns, and thus inform prevention and intervention initiatives. For example, a crime that was reported only to the San Mateo Rape Crisis Center would not catalyze campus initiative or be included in the annual crime statistics.

Policy Statement on Timely Warnings

If a situation arises, either on or off campus, that, in the judgment of the University President, constitutes an ongoing or continuing threat, a campus-wide "timely warning" will be issued. The warning will be issued through the University email system to students, staff, faculty, and the campus newsletter.

Depending on the particular circumstances of the crime, especially in all situations that could pose an immediate threat to individuals and the NDNU community, the Director of Public Safety may also send a notice on the campus-wide emergency text alert system to provide the university community with more immediate notification.

In such instances, a copy of the notice will also be posted in each residence hall, on the public bulletin board, and throughout the campus where students, staff, and faculty congregate. Follow-up information may also be posted on the Emergency Information section of the Department of Public website located at <https://www.ndnu.edu/emergency/>. Anyone with information warranting a timely warning should report the circumstances to the NDNU Department of Public Safety Office by phone at (650) 504-0656 or in person at the office in the main lobby of St. Mary's Hall, Room 111.

Policy Statement on Security and Access

During business hours, the university (excluding housing facilities) will be open to university students, parents, employees, contractors, guests, and invitees. During non-business hours, access to all university facilities is by key, if issued, or by admittance via the Department of Public Safety staff. In the case of periods of extended breaks, the university will admit only those with prior written approval to all facilities.

Residence halls are secured 24 hours a day. Over extended breaks, the doors of all halls will be secured around the clock and equipped with a lock separate from the regular key issued to resident students. Some facilities may have individual hours, varying at different times of the year. Examples are the Gleason Center and Gellert Library. In these cases, the facilities will be secured according to schedules developed by the department responsible for the facility.

Emergencies may necessitate changes or alterations to any posted schedules. Areas revealed as problematic have security surveys conducted by the Department of Public Safety. Administrators from the Facilities, Academic Schools, and other concerned areas review these results. These surveys examine security issues such as landscaping, locks, alarms, lighting, and communications. Additionally, during the academic year, the lead staff in Facilities, the Department of Public Safety, and the Custodial Team will meet to discuss issues of concern.

Policy Statement on Voluntary Confidential Reporting

Suppose you are the victim of a crime and do not want to pursue action within the university or criminal justice system. In that case, you may still want to consider making a confidential report. With your permission, a member of the Public Safety or any member of the NDNU staff can file a report on the details of the incident, and only those individuals with a need to know will be given the details or information. This is to ensure your and other community members' future safety. With such information, the university can keep accurate records of the number of incidents involving students, determine where there is a pattern of crime about a particular location, method, or assailant, and alert the campus community to potential danger. Reports filed this way are counted and disclosed in the university's annual crime statistics.

Policy Statement on Limited Voluntary Confidential Reporting

The Department of Public Safety encourages anyone who is the victim or witness to any crime to promptly report the incident to the Department of Public Safety or Belmont Police Department. Because police reports are public records under state law, the Belmont Police Department cannot confidentially hold crime reports.

Confidential reports for inclusion in the annual disclosure of crime statistics can generally be made to other campus security authorities (CSAs), as identified below. Confidential crime reports may also be sent to security@ndnu.edu or (650) 504- 0656.

CSAs, as defined by the Clery Act, include:

- Campus Police/Campus Security Officers
- Deans (or other senior student's administrative personnel)
- Advisors
- Faculty advisors to student clubs and organizations
- Other campus officials who have "significant responsibility for student and campus activities such as:
 - Student discipline
 - Campus judicial hearing officials

Policy Statement Addressing Counselors

As a result of the negotiated rulemaking process that followed the signing into law, the 1998 amendments to 20 U.S.C. Section 1092 (f) clarifies those considered campus security authorities (CSAs). Campus "Pastoral Counselors" and Campus "Professional Counselors," when acting as such, are not considered to be CSA and are not required to report crimes for inclusion in the annual disclosure of crime statistics. As a matter of policy, they are encouraged, if and when they deem it appropriate, to inform persons being counseled of the procedures to report crimes voluntarily for inclusion in the annual crime statistics. All personal information is strictly confidential. The rulemaking committee defines counselors as:

Pastoral Counselor

That religious order or denomination recognizes an employee of an institution associated with a religious order or denomination as someone who provides confidential counseling and functions within the scope of that recognition as a pastoral counselor.

Professional Counselor

An employee of an institution whose official responsibilities include providing psychological counseling to members of the institution's community and who is functioning within the scope of their license or certification.

Policy Statement on Sexual Misconduct

Violence Against Women Reauthorization Act

Purpose

The Violence Against Women Reauthorization Act of 2013 (VAWA) (Pub. L. 113-4), which, among other provisions, amended section 485(f) of the HEA, otherwise known as the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act). The Clery Act requires higher education institutions to comply with specific campus safety and security-related requirements as a condition of their participation in Title IV HEA programs. Notably, VAWA amended the Clery Act to require institutions to compile statistics for incidents of dating violence, domestic violence, sexual assault, and stalking and to include specific policies, procedures, and programs about these incidents in their annual security reports. VAWA amends section 668.46 of title 34 of the Code of Federal Regulations (CFR) to implement these statutory changes. Additionally, this updated section incorporates provisions added to the Clery Act by the Higher Education Opportunity Act, enacted in 2008.

Policy Statement on Missing Person Notification and Procedures

Public Communication

[Notre Dame de Namur University, Student Handbook](#)

[Notre Dame de Namur University Website](#)

Notre Dame de Namur University, Division of Student Affairs, [Academic Conduct](#)

- [Behavioral Conduct](#)

Policy Statement on Megan's Law

Section 290 of the California Penal Code requires people convicted of certain sexual offenses to register with the local law enforcement agency responsible for the jurisdiction in which they reside within five working days of their birthday and within five working days of changing their address. This is a lifetime requirement. Law enforcement cannot dictate where an offender lives if the offender registers their residence with the appropriate jurisdiction. (Complete requirements are listed in Section 290 of the California Penal Code at: <https://meganslaw.ca.gov/>)

Policy Statement on Drug and Alcohol Abuse Prevention Programs

Due to Notre Dame de Namur University not having any undergraduate programs and no graduate students living on campus, all supporting programs have stopped. However, there are online training programs available.

There were no campus-based drug or alcohol-related fatalities in the 2019, 2020, or 2021 academic year.

Policy Statement on Student Alcohol & Other Drugs

Parental Notification Policy for Alcohol and Other Drug Policy Violations

During the past three years, there were no students to whom a parental notification policy would apply. When there are students under the age of 21 residing on campus, the following policy applies.

NDNU is committed to developing a personal and community experience that significantly contributes to students' intellectual, spiritual, and psychological education and development.

The University's Parental Notification Policy for Alcohol and Other Drug Violations is aligned with the Higher Education Amendments of 1998. This set of amendments permits an educational institution to disclose to the parents or legal guardians of student information regarding these student's violation of any federal, state, or local law or any rule or policy of an institution governing the use or possession of alcohol or a controlled substance if the student is under age 21. The institution determines that the student has committed a disciplinary violation with respect to such use or possession. The 1998 amendment further provides that this determination is not impingent upon a conduct hearing or process. Students will be notified in advance that their parent(s) or guardian(s) are to be contacted whenever possible. NDNU may exercise this right under any of the following circumstances:

- A student is transported to a medical facility for treatment related to alcohol or drug use.
- A student causes harm to themselves or another while under the influence of alcohol or illicit drugs.
- A student is arrested or taken into police custody while under the influence of alcohol or illicit drugs.
- A student is responsible for vandalism or other destruction of property while under the influence of alcohol or illicit drugs.
- A student operates a vehicle while under the influence of alcohol or illicit drugs.
- A student disrupts teaching, disciplinary procedures, classroom learning, or other University activities while under the influence of alcohol or illicit drugs.
- Information regarding a student is needed from a parent or guardian in connection with an emergency to protect the student's or another individual's health and safety.
- A student shows a pattern of alcohol violations within an academic semester.
- Other circumstances, as determined by a student's Dean or their designee, to be appropriate (i.e., life-threatening situations, mental illness, etc.).

Counseling Services: A Commitment to Help

A problem exists when one's use of alcohol or illicit drugs causes physical or emotional harm, impairs one's judgment, infringes upon the rights of others, or interferes with one's work, relationships, or daily life. NDNU regards an alcohol or other drug problem as it does other behavioral/medical ones and does not attach a moral or social stigma to such personal difficulties. Alcohol and other chemical dependency problems can be treated successfully if they are identified as early as possible and if appropriate treatment programs are promptly instituted. NDNU is committed to providing resources for prevention programs and referral for treatment as needed. Specifically, workshops, counseling sessions, and referrals were available to students in need during the 2020-21 academic year.

Alcohol Education and Prevention Websites:

The following websites contain information regarding alcohol and other drug education and prevention:

San Mateo County Health Services: This website offers information and resources on substance abuse treatment, including detoxification services, outpatient, residential, and medication-assisted treatment. Services provided are based on individual needs and are available to San Mateo County Residents on a sliding scale basis. No one is turned away for lack of funds.

Substance Abuse and Mental Health Services Administration: a federal website offering information and resources regarding activities to prevent the use and misuse of drugs and/or the development of substance abuse disorders.

Substance Abuse Treatment and Service Locator: A federal website connecting users to treatment centers for substance abuse or behavioral health, suicide prevention lifelines,

Start Your Recovery.com: A comprehensive website offering resources to identify individualized solutions for overcoming substance misuse.

Web of Addictions: A website dedicated to providing accurate information about alcohol and other drug addictions.

Health Risks

Emergency Information Regarding Alcohol and Illicit Drugs:

When Alcohol Use Is Involved, Why Call?

Students may be impaired or intoxicated by alcohol or drug use. Serious medical consequences can occur when well-meaning friends of an intoxicated or impaired student risk a student's physical well-being by taking care of the student themselves. Not every person knows if they have had too much to drink, and there is a chance that you may be with another person whose drinking is at a dangerous level. Dangerous impairment by drugs may also not be immediately recognizable. Even a person who has consumed only a small amount of alcohol may be experiencing a dangerous interaction with illegal or prescription drugs or may have other complicating health conditions. In these rare circumstances, the University's priority is preserving life. A Student should not hesitate to call 911 in these circumstances. Many symptoms and factors can contribute to medical emergencies, such as alcohol poisoning, drug impairment, other specific medical conditions, or interactions between all three, and serious consequences can result.

From a Campus Phone: 9-911

From your cell phone: 911

Public Safety Cell Phone:(650) 504-0656

When Alcohol Is Not Involved, Why Call?

You may be faced with a medical emergency when alcohol use is not involved.

For students with a medical emergency resulting from ailments such as asthma, diabetes, allergic reactions, epilepsy, or other conditions that appear to need help, please contact 911. Sometimes, a person in medical distress needs YOU to make the call. Make the call if you are unsure if a person's life is in danger but you think it might be. You may need to ignore statements by the student in distress regarding whether or not they want you to call for help. Remember, their judgment may be impaired by their medical condition. Immediately call 911, then the Department of Public Safety.

How to Recognize a Medical Emergency?

Dangerous medical situations involving alcohol, drugs, or other dangerous medical conditions can come in many shapes and forms. You may not recognize the signs of an emergency because you have become accustomed to behaviors that may look normal when you or others are under the influence of drugs or alcohol. It is essential to be aware and understand that a person, whether under the influence of alcohol or drugs or not, who is unable to perform normal functions may be in a dangerous situation and need medical help immediately. Contact the Department of Public Safety or 911 when a person:

Is passed out and cannot be roused or awakened or stay awake or unconscious; has difficulty speaking coherently or comprehending others or the situation around them; has difficulty sitting, standing, or walking or cannot do this without assistance; is vomiting.

Dangerous medical situations may result in falling, becoming unconscious, or choking on vomit. Even if a person appears to be "sleeping it off," they may still have alcohol or drugs in their system that may still present a danger.

Policy Statement on Emergency Preparedness, Response & Resources

The health and safety of the NDNU community is our top priority. NDNU is committed to our Emergency Preparedness Program.

While it is inevitable that natural or human-caused events will negatively affect us in our homes, schools, and businesses, careful planning and preparation can reduce or minimize the impact of such incidents. Whether we experience an earthquake, wildfire, power outage, or other emergency, we can take steps now to help us successfully overcome the crisis. Please follow these links for more personal and family preparedness information:

[Governor's Office of Emergency Services](#) and [Ready.gov](#).

During an emergency that impacts the NDNU campus, the Department of Public Safety immediately minimizes injury, loss of life, and property damage. NDNU collaborates closely with local, county, and state emergency services personnel. The NDNU Emergency Response Guide can be found online at:

<https://www.ndnu.edu/documents/emergency-response-guide-2021.pdf>

Policy Statement on Fire Safety

It is the policy of NDNU to provide students, staff, faculty, and visitors with the safest possible environment, free from potential fire hazards. The primary goal of the University's Fire Prevention Program is to recognize hazardous conditions and take appropriate action before such conditions result in a fire emergency. This goal is accomplished by (1) conducting periodic fire safety inspections of all university buildings and (2) conducting third-party fire safety audits via our insurance consortia. Regarding Fire Safety Inspections, the buildings' fire and life safety features shall follow all applicable standards of the National Fire Protection Association (NFPA) and the local authority having jurisdiction, such as the Belmont Fire Department.

The NDNU Department of Public Safety will coordinate with the Belmont Police and Belmont Fire Department to investigate any fire incident.

To minimize the potential for fires at NDNU, the University's policy is to prohibit open burning and the use of combustible decorations at all times. Open burning, defined by the university, is an open/exposed flame or combustion that produces heat, light, or smoke and can potentially cause a fire. Examples of open burning are but are not limited to, candles, incense, bonfires, campfires, barbeque grills (except for those permanently installed and portables at least 50 feet from any building), and their related accessories such as gasoline, propane, lighter fluid, charcoal, and pyrotechnics.

All decorations and ornaments must be of fire-resistant or no-combustible material, U.L. rated, and approved for use. They shall not be hung or posted on any fire protection equipment (fire hose cabinets, fire extinguishers, sprinkler heads and piping, smoke detectors, fire alarms pull boxes, etc.), on or near exits, on or near emergency lights, on or near any other protective or operating features provided by the University, or in any manner that could present a fall or trip hazard or impede egress. Removal of all decorations, ornaments, and displays is required immediately after the event. Decorative lights, including holiday lights, floodlights, extension cords, and electrically operated ornaments, must be U.L.-rated and approved for use.

Electric lights or electrically operated ornaments shall not be used on metal, aluminum, or any other similar metal which could induce electric shock. Only heavy-duty extension cords and decorative lights in good condition (free from damage or exposed wiring) shall be used for decorations. These must be unplugged at the end of each day and removed after the event or holiday season. They shall not be hung or posted on any fire protection equipment (fire hose cabinets, fire extinguishers, sprinkler heads and piping, smoke detectors, fire alarm pull boxes, etc.), on or near exits, on or near exit or emergency lights, on or near any other protective or operating feature provided by the University, or in any manner that would present a fall or trip hazard or that would impede egress. Extension cords or decorating lights may not be routed under rugs or carpets, through doorways, or in any manner that could present a fall or trip hazard or impede egress. The university's policy is that only artificial holiday trees will be used and should be of fire-retardant or non-combustible material. Indoor trees must be placed out of the way of traffic. They must not block doorways, exits, exit signs, or any of the fire protection equipment (fire hose cabinets, fire extinguishers, sprinkler heads, piping, fire alarm pull boxes, smoke detectors, etc.) or be placed in any manner that could present a fall or trip hazard or impede egress.

Holiday tree lights must be unplugged at the end of each day and removed after the event or holiday season. Artificial snow and other decorative sprays should be cautiously used; they shall not be used in laboratory and clinical settings. Avoid spraying around exits, exit signs, or fire protection equipment (fire hose cabinets, fire extinguishers, sprinkler heads, piping, fire alarm pull boxes, smoke detectors, etc.).

When NDNU offers to house students, the following is the list of room regulations every resident must follow. The list is posted in every residence hall room.

Smoke detectors are located in all residence hall sleeping rooms as a source of early warning in case of fire. To ensure it is working properly, test your smoke detector monthly. Smoke detectors can be tested by pushing the test button on the bottom of the detector. If the detector produces a loud shrill alarm, it is working properly. If the detector fails to sound an alarm or intermittently emits a short beep, the detector's battery must be replaced. Contact Public Safety and/or the Facilities Department for replacement.

All extension cords must be three-wire, three-prong type and constructed with a minimum of 16-gauge wire. (Gauge numbers vary inversely with capacity). Cords must be well-maintained, with no breaks in the insulation.

Light-construction, multiple-outlet devices (cube taps) that plug directly into outlets are not authorized. Heavy-duty, multiple-outlet devices are authorized with internal breaker protection, three-wire, three-prong ground protection, and 16 gauge or heavier wires. Certified extension cords may be equipped with multiple outlets if the outlet fitting is a single-piece, fused rubber type that is an integral component of the extension cord.

No more than one high-wattage appliance, such as a hair dryer, water warmer, etc., may be connected to a single wall outlet simultaneously.

All appliances must be sufficiently protected from shock hazards and maintained in good repair, with no insulation damage or exposed wires.

Electrical cooking equipment such as fry pans, toasters, hot oil popcorn poppers, hot plates, personal microwaves, etc., are not authorized for use in student rooms. Well-maintained hot air popcorn poppers, coffee pots, bread-making machines, and water warmers are only allowed if placed on a non-combustible surface such as ceramic or insulated metal.

Electrical cords must not be crushed, compressed, constricted, or coiled in a manner that may cause breakdown of insulation, cause heat, or cause an induced current to appear in adjacent metal objects. Modification of electrical wiring is not permitted. Electrical cords shall not run through walls, ceilings, floors, doorways, windows, or across exits.

Portable space heaters are not allowed.

Draperies, tapestries, blankets, or posters displayed on walls and doors that would facilitate ignition, block exits or fire detection units, or present overhead fire hazards are not authorized.

Student-constructed furniture, posters, papers, and combustible decorations may not be present sufficiently to constitute an excessive combustible fire load, nor can fire safety devices be obstructed.

Decisions concerning fire load violations will be rendered in accordance with the judgment of the inspector and the following inspection guidelines:

Combustible wall paneling is prohibited.

Not more than 50% of room wall space may be covered with combustible decorations.

Full-floor carpeting is allowed only on the original floor. (No carpet on walls, doors, ceilings, etc.)

Student-made bunk constructions, shelves, or tables are allowed within a 100-board-foot maximum limit per room as long as all exposed wood is treated with a minimum of three coats of approved flame-retardant paint. Bunk constructions, including mattresses, can be no more than 72 inches above room floor level. Residents are strongly recommended to utilize noncombustible materials whenever possible in student-made construction to limit fire load. Furthermore, all installations are subject to approval as to structural integrity and safety by representatives of NDNU following installation.

Anything that hinders quick exit from a room (e.g., messy room, furniture, etc.) is prohibited and must be corrected.

Life safety signs inside each residence room door shall always be visible. If the placard has been torn or defaced, a new placard shall be obtained from Facilities and placed over the existing placard.

Decorations must be non-combustible or flameproofed. Paper and streamers attached to ceilings are not allowed. All decorations must be removed no later than three days following a holiday; Christmas/Chanukah/Kwanza/Ramadan decorations must be removed before semester break. Christmas trees and decorations are prohibited in hallways and elevator rooms. Flame-resistant artificial trees are permitted in rooms and lounges only. Decorative lighting must be well maintained and bear the UL Label. Lights must be unplugged when unattended.

Special permission from Facilities is required if decorative lights are to be used anywhere other than on Christmas trees (i.e., around one's room or in a doorway is prohibited).

Decorations in hallways are limited to room doors.

NDNU Fire Safety Guidelines EMERGENCY EXITS

Do not prop open, hold open, or obstruct designated fire doors.

Do not lock or otherwise close a fire or exit door to prevent or impede exit. Remove all obstructions from emergency exits and corridors.

Report blocked or locked fire exits to Public Safety and Facilities.

Do not obstruct fire alarm boxes, hoses, standpipes, fire extinguishers, fire sprinkler heads, fire/ smoke detectors, or any other fire protection equipment. NOTE: Each sprinkler head must have a minimum of 18 inches of clearance.
